## Wiring certification

CE, EN60598

# SAFETY & CARE INFORMATION UK/EU

- Please read these instructions IN FULL and carefully BEFORE commencing assembly and installation.
- Always place the lamp on a flat and stable surface away from the edge.
- Do NOT use a light bulb of more than 15W.
- We strongly recommend using an LED lightbulb and we recommend an opal bulb to prevent shadowing by visible filaments.
- If the light bulb breaks, ensure lamp is unplugged before handling the light bulb.
- Do not insert fingers in to lamp holder if there is no light bulb and lamp is plugged in. Always ensure lamp is unplugged before making any changes.
- If the external flex cable is damaged, this should only be replaced by the manufacturer or a similarly qualified person.
- Our lights are handmade from natural materials and due care should be taken to avoid damage.
- Lightly dust or wipe clean with a soft, dry cloth.
- For indoor use only.
- Keep away from water. If wet, remove water immediately with a dry cloth.
- Not suitable for humid environments.
- Always carry by the base.
